

## ML OR MORE

Unknown subject : unknown circumstance : unknown series of specimens : incomplete.

Mistake the structure for something else : the spinal discs are floating around the vagina : if this is not a collapse, it is an armour : at other times there are tablets, covers, cushions, and fluorescent nerves. How to map that?

Palpate Chimera's anatomy : the pelvis is where one can only imagine, and the guts : iron is roiling between the ankles : dark red waking up : clots and heat.

Allow the tension to become something else : resistance is reencoded in a cryptic pattern : the cramps intersect : accentuate the paradox neck.

Unknown environment : unknown time remaining : near eyelashes, and a stream.

Comb Rejection's hair : weakness operates : fingers fall.
